

Opening Senior Director Positions In Greeter Value Pharmaceuticals

Greeter Value Pharmaceuticals, Ltd. is a high-tech pharmaceutical company based in Shanghai. The company was founded by 10 experienced partners in 2011. Our cross-functional partners include 5 senior pharmaceuticals scientists in USA, 2 professors from top universities, 2 Wall Street financial professionals, and 1 successful entrepreneur in China. The company has a competitive global strategy, including the synergy among high efficient capital investment, advanced drug development, high-quality and low-cost control, and effective global sales development. Our core business is focused on the research and development, manufacturing, and sales of high-end generic drugs, which involves advanced chemistry and process technologies and therefore generates high profits. Our middle and long term goals are (1) to become a competitive pharmaceutical company with our core technologies and patents; and (2) to build well-known product brands and an excellent reputation. Our long term goal is to bring our company to IPO (公司上市). In current stage, our focus is API and intermediates. Next stage we will focus on formulation.

Currently, we have open positions for senior chemists in **Organic Synthesis** and **Process Chemistry** (有机合成, 中试).

Job Title: Senior Director or VP (based in Shanghai 上海市区)

Starting date: no later than New Year (公司要求能在今年元旦之前(最晚不晚于春节)能到公司报到上班)

Description:

1. Lead a team of 6 organic chemists working on API synthesis and optimization; effectively manage day-to-day lab operations. (负责领导实验团队进行高效有序的研发)
2. Design and develop scalable synthetic route for intermediates and APIs. Help to address issues existing from lab to pilot plant scale of process as well as eventual commercialization under cGMP. (中试工艺优化)
3. Project management: propose, plan and monitor projects, prepare and review project reports and communicate effectively with company management/partners and clients. (有效的项目管理, 合理的计划性, 负责设计、执行和协调实验; 及时评估阶段性工作目标)

4. Motivate team members and develop their interests and potentials, and direct senior staff by active coaching and training while cultivating collaborative and competitive team culture, creative problem-solving and result-driven operations. (领导、激励、发掘团队研究人员的兴趣和潜力, 建立积极、公平的合作和竞争氛围)

Requirements:

1. Strong organic chemistry or process chemistry background. Ph.D. in organic chemistry and at least 5 years of experience in the pharmaceutical industry in USA, in the fields of synthesis, process development and/or API manufacturing technology. (有扎实的有机合成功底, 最好有全合成或中试工艺背景; 有机化学博士)
2. An in-depth understanding of pharmaceutical development and manufacturing processes. Ideally, the candidate has working experience in top pharmaceutical companies or held a managerial role in leading CMO organizations.
3. Working knowledge of US FDA and Chinese SFDA drug regulations and cGMP.
4. Global generic drug company experience in manufacturing and management preferred.
5. Special skills of developing processes for high potent drugs preferred.
6. Good communication and management skills.
7. Self-motivation, ownership and entrepreneurship attitude strongly desired. (热爱合成化学, 能自我激励, 有主人翁精神和爱岗敬业态度)

Our company offers a competitive compensation package, including salary, bonus, and benefits. Especially, in addition we offer pre-IPO stocks(原始股). 你有机会成为公司的原始股东; 今后公司成功上市, 你拥有的原始股能给你带来丰厚的回报! Our company also provides significant individual growth opportunities in a leadership role. If you are looking for the great Chinese opportunities, here are the right positions.

We also welcome outstanding candidates to join our partnership.
