

扬子江药业集团

Yangtze River Pharmaceutical Group, USA Office Pan-Pacific Biopharma, Inc.

Company Name: Pan-Pacific Biopharma, Inc.
Location: San Francisco, California
Post date: January 24, 2012
Position type: Full time
Industry: Biopharmaceutical industry
Position: Pharmaceutical Technology Specialist

Job Description:

Pan-Pacific Biopharma Inc., the wholly owned US subsidiary of Yangtze River Pharmaceutical Group (a leading China-based pharmaceutical enterprise with sales revenue over \$4 billion: <http://www.yangzijiang.com/index.aspx>), has an excellent opportunity to join our team in San Francisco Bay area.

The Pharmaceutical Technology Specialist plays an essential role in project management of drug development, product transfer and manufacturing at designated manufacturing sites, providing expertise in pharmaceutical engineering and manufacturing (for both parenteral and oral solid dosage forms), and supporting due diligence on business development opportunity if required.

The candidate will be responsible for leading pharmaceutical technology related activities and working closely with internal teams.

- Provide leadership on manufacturing project management.
- Provide day-to-day technical support for commercial drug product manufacturing –i.e., trouble shooting, process changes and improvements, new manufacturing technology implementation etc.
- Lead technology transfer activities between US site and Yangtze River's China site

Basic Qualification and Knowledge Desired

- BS/MS/PhD degree in Chemical Engineering or Industrial Pharmacy
- Basic knowledge of dosage forms in pharmaceutical technology
- Knowledge of pharmaceutical processing and manufacturing, including issues pertaining to GMP's, GLP's, and specialized processing equipment
- Knowledge of drug product portfolio and basic manufacturing processes
- Proficiency in Microsoft Office Suite: Word, PowerPoint and Excel
- Bi-Lingual (English and Chinese Mandarin) required
- Previous exposure to pharmaceutical technology, products, and processes desired
